Please use a browser which supports SAP Ariba:

	Internet Explorer	
	Mozilla Firefox	
	Google Chrome	

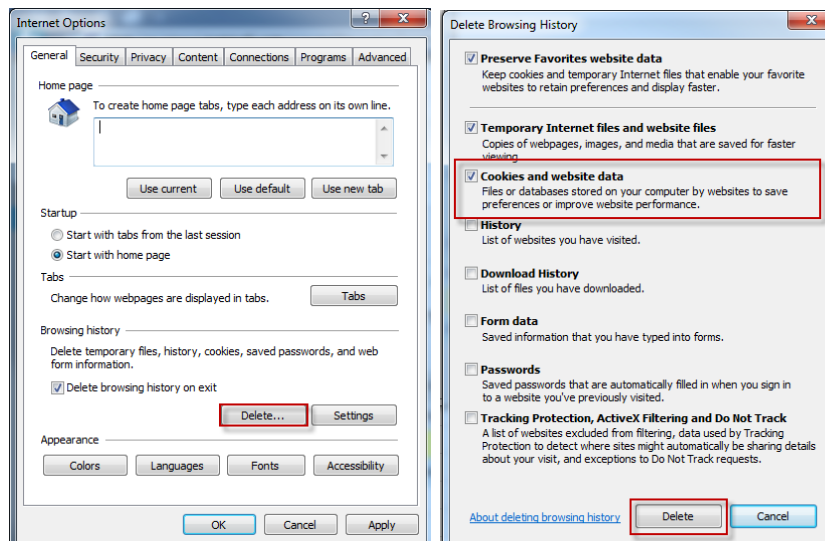

SWAROVSKI

Delete cookies in the Internet Explorer

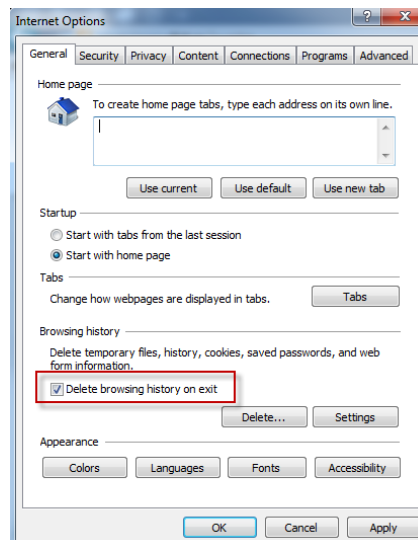

At the top on the right-hand side you can open the settings and choose *Internet Options*

In tap *General* in the section *Browsing history* cookies can be deleted manually with *Delete...*

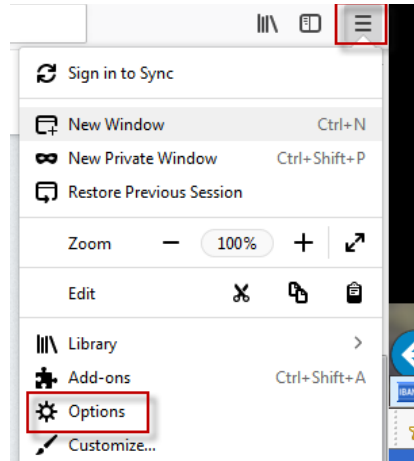

If you don't want to do this step manually each time, you can select *delete browsing history on exit* in *General – Browsing history* (suggested).

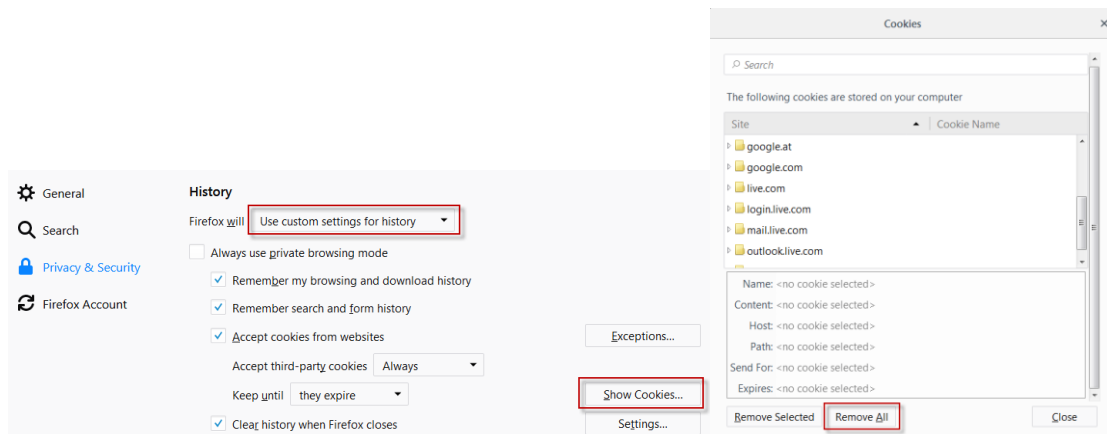

SWAROVSKI

Delete cookies in the Mozilla Firefox

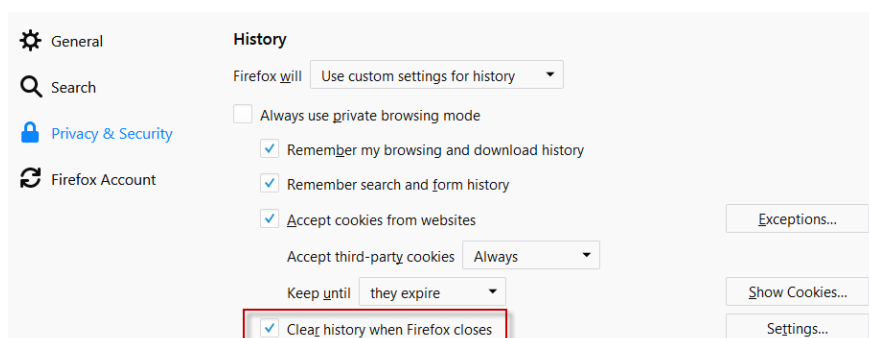

At the top on the right-hand side you can open the settings and choose *Options*

In tap *Privacy & Security* you can find the section *History*. By selecting *Use custom settings for history* in the drop-down menu you can delete cookies manually by clicking on *Show Cookies...* and *Remove all*.

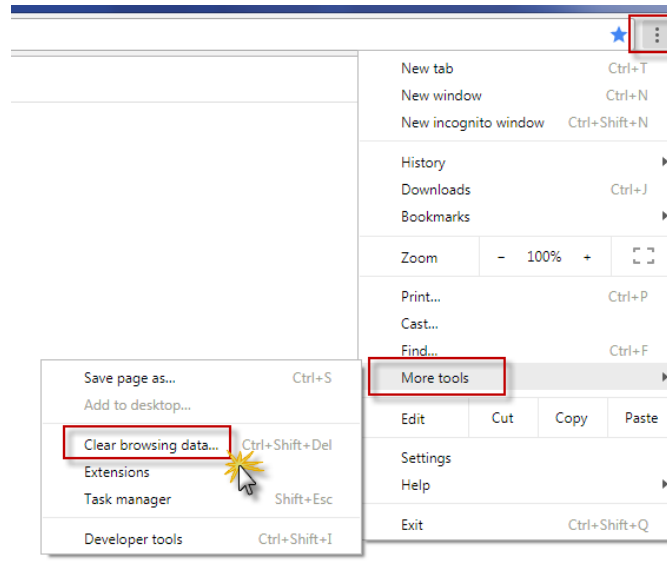

To delete the browsing history on exit automatically, tick the box *Clear history when Firefox closes*.

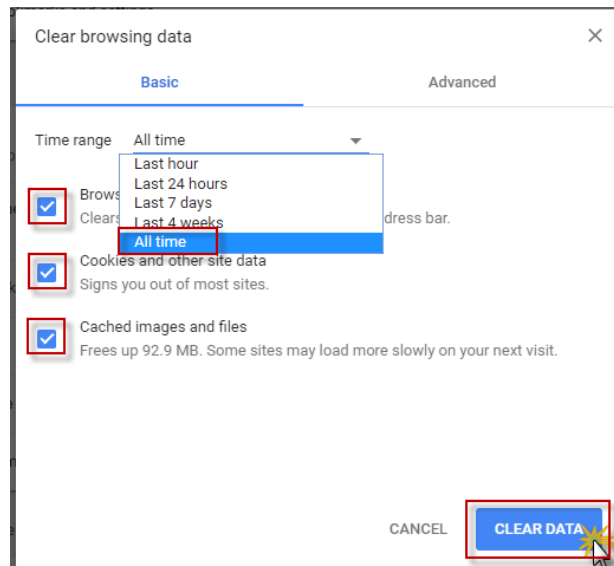

SWAROVSKI

Delete cookies in Google Chrome

At the top on the right-hand side you can open the settings and choose *More tools – Clear browsing data*.

To delete all cookies manually, select *All time* and *Cookies and other site data* and click on *Clear Data*.

SWAROVSKI

To delete browsing history on exit, select *Settings* and *Show Advanced Settings*. In the section *Privacy and security* – *Content settings* – *Cookies* select *Keep local data only until you quit your browser*.
